

A 6x6 grid with numbers and paths. The numbers are placed in the following cells (row, column): (1,3)=5, (1,4)=8, (1,6)=9, (2,1)=9, (2,3)=8, (2,4)=1, (2,5)=4, (3,2)=3, (3,3)=7, (3,4)=5, (3,6)=6, (4,1)=5, (4,2)=2, (4,3)=4, (4,5)=3, (4,6)=5, (5,2)=8, (5,3)=3, (5,4)=9, (5,5)=4, (5,6)=4, (6,2)=6, (6,3)=2, (6,4)=2, (6,5)=6, (6,6)=1. The paths are as follows: 9 at (1,6) to 8 at (2,3) via (2,5)=4; 8 at (2,3) to 7 at (3,3); 7 at (3,3) to 5 at (3,6); 5 at (3,6) to 6 at (4,6); 6 at (4,6) to 5 at (4,5); 5 at (4,5) to 4 at (5,5); 4 at (5,5) to 3 at (5,3); 3 at (5,3) to 2 at (6,3); 2 at (6,3) to 1 at (6,6); 1 at (6,6) to 9 at (2,1) via (2,4)=1; 9 at (2,1) to 8 at (2,3); 8 at (2,3) to 7 at (3,3); 7 at (3,3) to 5 at (3,6); 5 at (3,6) to 6 at (4,6); 6 at (4,6) to 5 at (4,5); 5 at (4,5) to 4 at (5,5); 4 at (5,5) to 3 at (5,3); 3 at (5,3) to 2 at (6,3); 2 at (6,3) to 1 at (6,6); 1 at (6,6) to 9 at (2,1) via (2,4)=1.
