

A 6x6 grid puzzle. The grid contains numbers and circles. The numbers are: Row 1: (1,1)=2, (1,2)=5, (1,3)=7, (1,4)=3, (1,5)=2, (1,6)=6; Row 2: (2,1)=1, (2,2)=8, (2,3)=6, (2,4)=4, (2,5)=3, (2,6)=7; Row 3: (3,1)=3, (3,2)=1, (3,3)=6, (3,4)=8, (3,5)=1, (3,6)=5; Row 4: (4,1)=3, (4,2)=1, (4,3)=6, (4,4)=4, (4,5)=9. The circles are located at: (1,3), (1,4), (1,6), (2,3), (2,4), (2,6), (3,1), (3,2), (3,4), (3,5), (3,6), (4,3), (4,4), (4,5), (4,6). Arrows indicate connections between numbers and circles: (1,1) to (1,3), (1,2) to (1,3), (1,3) to (2,3), (1,4) to (2,4), (1,5) to (1,4), (1,6) to (1,5), (2,1) to (2,2), (2,2) to (2,3), (2,3) to (2,4), (2,4) to (2,5), (2,5) to (2,6), (2,6) to (3,6), (3,1) to (3,2), (3,2) to (3,3), (3,3) to (3,4), (3,4) to (3,5), (3,5) to (3,6), (3,6) to (4,6), (4,1) to (4,2), (4,2) to (4,3), (4,3) to (4,4), (4,4) to (4,5), (4,5) to (4,6).
