

A 6x6 grid puzzle. The grid contains numbers and circles. The numbers are: Row 1: (1,2)=9, (1,3)=4, (1,5)=3; Row 2: (2,2)=6, (2,4)=5, (2,6)=7; Row 3: (3,1)=2, (3,2)=5, (3,3)=3, (3,5)=2, (3,6)=9; Row 4: (4,1)=0, (4,4)=2, (4,5)=5, (4,6)=1; Row 5: (5,1)=0, (5,4)=7, (5,5)=4, (5,6)=8; Row 6: (6,1)=9, (6,5)=8, (6,6)=6, (6,6)=2. Circles are placed at various intersections and contain numbers: (1,1) circle=9, (1,3) circle=4, (1,5) circle=3, (2,2) circle=6, (2,4) circle=5, (2,6) circle=7, (3,1) circle=2, (3,2) circle=5, (3,3) circle=3, (3,5) circle=2, (3,6) circle=9, (4,1) circle=0, (4,4) circle=2, (4,5) circle=5, (4,6) circle=1, (5,1) circle=0, (5,4) circle=7, (5,5) circle=4, (5,6) circle=8, (6,1) circle=9, (6,5) circle=8, (6,6) circle=6, (6,6) circle=2.
