

The grid is a 6x6 square divided into four 3x3 quadrants by a vertical line between columns 3 and 4 and a horizontal line between rows 3 and 4. The numbers and paths are as follows:

Row \ Column	1	2	3	4	5	6
1	5	4	6			
2	2	7				
3	9	2				
4	6	8				
5						
6						

The paths are composed of circles connected by lines. The paths are as follows:

- Path 1:** Starts at (1,1), goes right to (1,2), then down to (2,2), then right to (2,3), then down to (3,3), then right to (3,4), then down to (4,4), then right to (4,5), then down to (5,5), then right to (5,6), then down to (6,6).
- Path 2:** Starts at (1,4), goes right to (1,5), then down to (2,5), then right to (2,6), then down to (3,6), then right to (3,5), then down to (4,5), then right to (4,4), then down to (5,4), then right to (5,3), then down to (6,3).
- Path 3:** Starts at (1,6), goes right to (1,5), then down to (2,5), then right to (2,4), then down to (3,4), then right to (3,3), then down to (4,3), then right to (4,2), then down to (5,2), then right to (5,1), then down to (6,1).
- Path 4:** Starts at (1,3), goes right to (1,4), then down to (2,4), then right to (2,5), then down to (3,5), then right to (3,6), then down to (4,6), then right to (4,5), then down to (5,5), then right to (5,4), then down to (6,4).
