

A 9x9 grid with numbers and paths. The grid is divided into three 3x3 sub-grids by thick black lines. The numbers are placed in the following cells: (1,1)=2, (1,3)=3, (1,4)=4, (1,5)=3, (1,6)=7, (2,2)=9, (2,3)=1, (2,5)=8, (3,1)=5, (3,2)=6, (3,3)=2, (3,4)=8, (3,5)=5, (3,6)=7, (4,1)=3, (4,2)=2, (4,3)=7, (4,4)=9, (5,1)=5, (5,2)=1, (5,3)=6, (5,4)=7, (5,5)=4, (6,1)=6, (6,2)=3, (6,3)=7, (6,4)=4, (6,5)=3, (6,6)=4. The paths are formed by gray lines connecting circles. The circles are located at: (1,1), (1,2), (1,3), (1,4), (1,5), (1,6), (1,7), (1,8), (1,9), (2,1), (2,2), (2,3), (2,4), (2,5), (2,6), (2,7), (2,8), (2,9), (3,1), (3,2), (3,3), (3,4), (3,5), (3,6), (3,7), (3,8), (3,9), (4,1), (4,2), (4,3), (4,4), (4,5), (4,6), (4,7), (4,8), (4,9), (5,1), (5,2), (5,3), (5,4), (5,5), (5,6), (5,7), (5,8), (5,9), (6,1), (6,2), (6,3), (6,4), (6,5), (6,6), (6,7), (6,8), (6,9).
