

A 6x6 grid with numbers and a path. The numbers are placed in the following cells (row, column): (1,6)=3, (2,3)=6, (2,4)=4, (2,5)=1, (2,6)=7, (2,7)=9, (3,2)=3, (3,3)=2, (3,5)=5, (4,2)=6, (4,3)=7, (4,4)=8, (4,5)=2, (4,6)=1, (4,7)=3, (4,8)=5, (4,9)=6, (5,4)=5, (5,7)=2, (6,3)=1, (6,4)=3, (6,6)=8, (6,7)=4, (6,8)=6, (7,9)=2. A path of grey lines connects the numbers in the following order: 3 (1,6) -> 9 (2,6) -> 7 (2,5) -> 1 (2,4) -> 4 (2,3) -> 6 (2,3) -> 3 (3,2) -> 2 (3,3) -> 5 (3,5) -> 7 (4,3) -> 6 (4,2) -> 8 (4,4) -> 2 (4,5) -> 1 (4,6) -> 3 (4,7) -> 5 (4,8) -> 2 (5,7) -> 4 (6,7) -> 6 (6,8) -> 8 (6,6) -> 3 (6,4) -> 1 (6,3) -> 2 (6,3).
