

A 6x6 grid with numbers and a path. The numbers are placed in the following cells (row, column): (1,1)=5, (1,3)=6, (1,5)=4, (1,6)=7, (1,7)=3, (2,2)=1, (2,6)=8, (2,7)=4, (3,1)=1, (3,3)=3, (3,4)=4, (3,5)=5, (3,6)=7, (3,7)=2, (4,1)=1, (4,4)=7, (4,6)=3, (4,7)=9, (5,3)=2, (5,4)=1, (5,7)=8, (6,4)=5, (6,6)=2, (6,7)=2, (6,8)=5, (6,9)=7. A path of gray lines connects the numbers in the following order: 5 (1,1) -> 6 (1,3) -> 4 (1,5) -> 7 (1,6) -> 8 (2,6) -> 3 (2,7) -> 4 (3,7) -> 2 (3,8) -> 9 (4,7) -> 8 (5,7) -> 7 (6,7) -> 5 (6,9) -> 2 (6,6) -> 1 (5,4) -> 2 (5,3) -> 1 (4,1) -> 3 (3,4) -> 4 (3,5) -> 5 (3,6) -> 7 (4,4) -> 3 (4,6) -> 2 (3,7) -> 1 (2,2) -> 5 (1,3) -> 6 (1,1).
