

A 3x3 grid with numbers and a path. The numbers are: Row 1: (1,3)=1, (2,3)=5, (3,3)=2; Row 2: (1,1)=5, (2,1)=6, (2,2)=1, (2,3)=8, (3,2)=9, (3,3)=4, (3,4)=7; Row 3: (1,1)=2, (1,2)=3, (2,2)=4, (2,3)=9, (3,3)=3, (3,4)=1; Row 4: (1,1)=8, (1,2)=7, (2,1)=2, (2,2)=9, (3,2)=5, (3,3)=4, (3,4)=7, (3,5)=6, (4,4)=1. The path is a continuous line connecting the numbers in the following order: 1 (R1C3) -> 5 (R2C3) -> 8 (R2C4) -> 9 (R3C5) -> 4 (R3C6) -> 7 (R3C7) -> 1 (R4C8) -> 6 (R4C9) -> 7 (R5C4) -> 4 (R5C5) -> 5 (R5C6) -> 9 (R6C7) -> 4 (R6C8) -> 3 (R6C9) -> 2 (R7C1) -> 3 (R7C2) -> 4 (R7C3) -> 6 (R8C1) -> 1 (R8C2) -> 5 (R8C3) -> 1 (R9C4).
