

A 6x6 grid with numbers and a path. The numbers are: Row 1: (1,1)=4, (1,2)=6, (1,3)=2, (1,4)=1, (1,5)=9, (1,6)=; Row 2: (2,1)=8, (2,2)=, (2,3)=, (2,4)=3, (2,5)=2, (2,6)=4; Row 3: (3,1)=5, (3,2)=9, (3,3)=1, (3,4)=7, (3,5)=4, (3,6)=3; Row 4: (4,1)=, (4,2)=3, (4,3)=4, (4,4)=, (4,5)=1, (4,6)=5; Row 5: (5,1)=9, (5,2)=5, (5,3)=, (5,4)=1, (5,5)=8, (5,6)=; Row 6: (6,1)=, (6,2)=, (6,3)=6, (6,4)=7, (6,5)=, (6,6)=1. A path of grey lines connects the numbers in a continuous sequence: 4 (R1C1) to 6 (R1C2) to 2 (R1C3) to 1 (R1C4) to 3 (R2C4) to 2 (R2C5) to 4 (R2C6) to 3 (R3C6) to 5 (R3C6) to 1 (R4C5) to 4 (R4C3) to 3 (R4C2) to 9 (R3C1) to 5 (R3C1) to 4 (R3C4) to 7 (R3C4) to 1 (R3C3) to 9 (R3C2) to 5 (R3C1) to 3 (R4C2) to 4 (R4C3) to 1 (R4C5) to 8 (R5C5) to 1 (R5C4) to 7 (R6C4) to 6 (R6C3) to 5 (R5C2) to 9 (R5C1) to 4 (R1C1).
