

A 6x6 grid with numbers and a continuous path. The numbers are placed in the following cells (row, column): (1,1)=5, (1,4)=1, (1,5)=3, (1,6)=7, (2,4)=3, (2,5)=1, (2,6)=8, (3,2)=5, (3,3)=7, (3,4)=6, (3,5)=9, (3,6)=2, (4,2)=2, (4,3)=7, (4,5)=5, (4,6)=6, (5,1)=4, (5,2)=6, (5,3)=7, (5,4)=3, (5,5)=1, (5,6)=8, (6,1)=2, (6,3)=5, (6,5)=1. A continuous path of grey lines connects the numbers in the following order: 5 (1,1) -> 3 (1,5) -> 8 (2,6) -> 2 (3,6) -> 6 (4,6) -> 8 (5,6) -> 1 (6,5) -> 5 (6,3) -> 1 (5,5) -> 3 (5,4) -> 7 (5,3) -> 2 (4,3) -> 7 (4,2) -> 6 (3,2) -> 5 (3,1) -> 9 (3,5) -> 6 (3,4) -> 7 (2,4) -> 3 (2,4) -> 1 (1,4) -> 5 (1,1).
