

A 6x6 grid with numbers and a path. The numbers are placed in the following cells (row, column): (1,3)=3, (1,4)=6, (1,5)=3, (1,6)=4, (1,7)=5, (2,3)=9, (2,4)=8, (2,5)=5, (2,6)=4, (2,7)=9, (3,2)=2, (3,3)=5, (3,4)=4, (3,5)=5, (3,6)=3, (3,7)=7, (4,1)=3, (4,2)=1, (4,3)=6, (4,4)=8, (4,5)=4, (4,6)=7, (4,7)=3. The path is a continuous line of gray segments connecting the following cells: (1,1)-(1,2)-(1,3)-(2,3)-(2,4)-(2,5)-(3,5)-(3,4)-(3,3)-(3,2)-(3,1)-(4,1)-(4,2)-(4,3)-(4,4)-(4,5)-(5,5)-(5,4)-(5,3)-(5,2)-(5,1)-(6,1)-(6,2)-(6,3)-(6,4)-(6,5)-(6,6)-(6,7).
