

A 5x5 grid with numbers and a path. The numbers are: Row 1: (1,3)=9, (2,2)=1, (2,4)=8, (2,5)=4, (3,5)=3, (3,6)=7; Row 2: (1,2)=9, (2,3)=8, (2,4)=6, (3,5)=3; Row 3: (1,1)=1, (1,2)=4, (2,3)=5, (3,4)=8, (3,5)=5; Row 4: (1,3)=6, (1,4)=4, (2,5)=2, (2,6)=1, (3,6)=6, (4,6)=4; Row 5: (1,1)=1, (1,2)=7, (3,4)=9, (4,5)=6. The path is a continuous line of gray segments connecting the numbers in the following order: 9 (1,3) -> 1 (2,2) -> 8 (2,4) -> 4 (2,5) -> 3 (3,5) -> 7 (3,6) -> 3 (3,5) -> 8 (2,4) -> 6 (2,4) -> 5 (3,5) -> 8 (3,4) -> 5 (3,5) -> 5 (3,5) -> 2 (2,5) -> 1 (2,6) -> 6 (3,6) -> 4 (4,6) -> 6 (4,5) -> 9 (3,4) -> 7 (1,2) -> 1 (1,1).
