

A 6x6 grid with numbers and a path. The numbers are: Row 1: (1,2)=8, (1,3)=1, (1,4)=4, (1,5)=1, (1,6)=4; Row 2: (2,1)=8, (2,2)=2, (2,3)=7, (2,4)=1, (2,5)=8, (2,6)=1; Row 3: (3,2)=7, (3,3)=8, (3,4)=3, (3,5)=8, (3,6)=4; Row 4: (4,1)=6, (4,2)=8, (4,3)=8, (4,4)=3, (4,5)=9, (4,6)=4; Row 5: (5,1)=8, (5,3)=3, (5,4)=9. The path is a continuous line of gray segments connecting the numbers in the following order: 8 (1,2) -> 1 (1,3) -> 4 (1,4) -> 1 (1,5) -> 4 (1,6) -> 1 (2,6) -> 8 (2,5) -> 1 (2,4) -> 7 (2,3) -> 8 (3,3) -> 3 (3,4) -> 8 (3,5) -> 4 (3,6) -> 9 (4,5) -> 8 (4,6) -> 4 (4,6) -> 3 (4,4) -> 8 (4,3) -> 8 (4,2) -> 6 (4,1) -> 7 (3,2) -> 8 (2,1) -> 2 (2,2) -> 1 (1,3) -> 8 (1,2).
