

A 6x6 grid with numbers and a path. The numbers are: Row 1: (1,1)=2, (1,5)=4, (1,6)=7; Row 2: (2,1)=9, (2,2)=7, (2,3)=6, (2,4)=3, (2,6)=8; Row 3: (3,2)=4, (3,3)=3, (3,4)=6, (3,5)=1, (3,6)=4; Row 4: (4,2)=8, (4,3)=3, (4,4)=8, (4,5)=9, (4,6)=5; Row 5: (5,1)=8, (5,2)=4, (5,3)=3, (5,4)=9, (5,5)=1, (5,6)=8; Row 6: (6,3)=4, (6,5)=7. A path of grey lines connects the numbers in a continuous sequence: 2 (R1C1) to 7 (R2C2) to 6 (R2C3) to 3 (R2C4) to 4 (R1C5) to 8 (R2C6) to 4 (R3C6) to 5 (R3C6) to 1 (R3C5) to 8 (R4C4) to 3 (R4C3) to 4 (R5C2) to 8 (R5C1) to 9 (R5C4) to 7 (R6C5) to 8 (R5C6) to 4 (R6C3) to 3 (R4C3) to 6 (R3C4) to 3 (R3C3) to 4 (R3C2) to 7 (R2C2) to 2 (R1C1).
