

A 6x6 grid with numbers and a path. The numbers are placed in the following cells (row, column): (1,1)=4, (1,2)=6, (1,3)=9, (1,4)=3, (1,5)=5, (1,6)=7, (2,1)=3, (2,4)=7, (2,4)=3, (2,5)=2, (2,6)=8, (3,1)=1, (3,3)=8, (3,4)=4, (3,5)=7, (3,6)=9, (4,1)=2, (4,2)=7, (4,3)=4, (4,4)=6, (4,5)=7, (4,6)=1, (4,6)=3, (5,1)=7, (5,2)=4, (5,3)=1, (5,4)=3, (5,5)=5, (5,6)=8, (6,1)=2, (6,2)=8, (6,3)=1, (6,4)=3, (6,5)=5, (6,6)=8.

The path is a continuous line of gray segments connecting the following cells: (1,1) to (2,1), (2,1) to (2,2), (2,2) to (2,3), (2,3) to (3,3), (3,3) to (3,4), (3,4) to (3,5), (3,5) to (4,5), (4,5) to (4,6), (4,6) to (5,6), (5,6) to (5,5), (5,5) to (5,4), (5,4) to (5,3), (5,3) to (5,2), (5,2) to (5,1), (5,1) to (4,1), (4,1) to (4,2), (4,2) to (4,3), (4,3) to (4,4), (4,4) to (4,5), (4,5) to (4,6), (4,6) to (3,6), (3,6) to (3,5), (3,5) to (3,4), (3,4) to (3,3), (3,3) to (3,2), (3,2) to (3,1), (3,1) to (2,1), (2,1) to (2,2), (2,2) to (2,3), (2,3) to (2,4), (2,4) to (2,5), (2,5) to (2,6), (2,6) to (1,6), (1,6) to (1,5), (1,5) to (1,4), (1,4) to (1,3), (1,3) to (1,2), (1,2) to (1,1).
