

A 6x6 grid puzzle. The grid contains numbers in some cells and paths made of gray lines connecting other cells. The numbers are as follows:

			8	3		7		
				5				
	9		8				1	
					7			
9				6		3		
							6	
	3		5		2			
4		7	1					
6			3		4	1		5
	1		7		5		8	

The paths connect the following pairs of cells (row, column) from the top-left corner (0,0) to the bottom-right corner (5,5):

- (0,0) to (1,1)
- (0,0) to (1,2)
