

A 9x9 grid with numbers and a continuous path. The numbers are placed in the following cells (row, column): (1,2)=8, (1,3)=5, (1,9)=9, (2,1)=7, (2,7)=4, (2,8)=7, (3,1)=8, (3,3)=9, (3,4)=3, (3,5)=7, (3,6)=2, (3,7)=5, (3,8)=2, (3,9)=8, (4,2)=4, (4,8)=6, (5,1)=7, (5,5)=2, (5,6)=1, (5,8)=8, (6,1)=2, (6,4)=9, (6,7)=1, (6,9)=3. The path is a continuous line of gray segments connecting the numbers in the following order: 8 (1,2) -> 2 (2,8) -> 9 (3,3) -> 7 (3,5) -> 5 (3,7) -> 2 (3,6) -> 5 (4,2) -> 4 (4,8) -> 6 (4,9) -> 8 (5,8) -> 2 (5,5) -> 1 (5,6) -> 9 (6,4) -> 3 (6,9) -> 8 (5,1) -> 7 (2,1) -> 9 (1,9) -> 7 (2,8) -> 4 (2,7) -> 8 (1,2).
