

A 6x6 grid with numbers and a path. The numbers are placed in the following cells (row, column): (1,2)=7, (1,3)=3, (1,4)=7, (1,5)=9, (1,6)=8, (2,1)=8, (2,2)=1, (2,3)=6, (2,4)=8, (2,5)=1, (2,6)=6, (3,1)=6, (3,2)=3, (3,4)=6, (3,5)=5, (3,6)=9, (4,1)=7, (4,2)=6, (4,3)=2, (4,4)=6, (4,5)=3, (5,1)=4, (5,2)=3, (5,3)=7, (5,4)=9, (5,5)=1, (5,6)=2. A path of grey lines connects the numbers in the following order: 7 (1,2) -> 8 (2,1) -> 1 (2,2) -> 6 (2,3) -> 8 (2,4) -> 1 (2,5) -> 5 (3,5) -> 3 (3,6) -> 6 (4,5) -> 3 (4,4) -> 6 (4,3) -> 2 (4,2) -> 1 (5,5) -> 9 (5,4) -> 7 (5,3) -> 3 (5,2) -> 4 (5,1).
