

A 6x6 grid with numbers and a path. The numbers are placed in the following cells (row, column): (1,1)=6, (1,2)=5, (1,5)=3, (1,6)=4, (2,3)=8, (2,4)=9, (2,5)=7, (2,6)=5, (3,1)=4, (3,3)=7, (3,4)=8, (3,5)=2, (3,6)=7, (4,1)=6, (4,2)=3, (4,3)=1, (4,4)=7, (4,5)=9, (4,6)=6, (5,3)=5, (5,4)=7, (5,5)=4, (5,6)=6. A path of gray lines connects the numbers in the following order: 6 (1,1) -> 5 (1,2) -> 2 (2,3) -> 8 (2,4) -> 9 (2,5) -> 7 (2,6) -> 5 (3,6) -> 7 (3,5) -> 8 (3,4) -> 2 (3,5) -> 1 (4,3) -> 7 (4,4) -> 6 (4,5) -> 4 (5,5) -> 6 (5,6) -> 7 (5,4) -> 5 (5,3) -> 3 (4,2) -> 6 (4,1) -> 4 (3,1).
