

A 5x5 grid with numbers and a path. The numbers are: Row 1: (1,1)=1, (1,2)=8, (1,3)=5, (1,4)=7, (1,5)=3, (1,6)=6, (1,7)=8; Row 2: (2,1)=6, (2,2)=1, (2,3)=3, (2,4)=1, (2,5)=2, (2,6)=5; Row 3: (3,1)=4, (3,2)=3, (3,3)=6, (3,4)=9, (3,5)=7; Row 4: (4,1)=2, (4,2)=3, (4,3)=6, (4,4)=8; Row 5: (5,1)=1, (5,2)=3, (5,3)=6, (5,4)=8, (5,5)=2. The path is a continuous line of gray squares: (1,1), (1,2), (1,3), (1,4), (1,5), (1,6), (1,7), (2,7), (2,6), (2,5), (2,4), (2,3), (2,2), (2,1), (3,1), (3,2), (3,3), (3,4), (3,5), (3,6), (3,7), (4,7), (4,6), (4,5), (4,4), (4,3), (4,2), (4,1), (5,1), (5,2), (5,3), (5,4), (5,5).
