

A 5x5 grid with numbers and a path. The numbers are: Row 1: (1,1)=8, (1,2)=1, (1,4)=3, (1,5)=6, (1,6)=5, (1,7)=8; Row 2: (2,3)=7, (2,4)=4, (2,5)=1, (2,6)=1, (2,7)=2; Row 3: (3,2)=5, (3,3)=6, (3,4)=2, (3,6)=4, (3,7)=9; Row 4: (4,1)=9, (4,2)=1, (4,3)=5, (4,4)=8, (4,5)=2, (4,6)=7, (4,7)=3; Row 5: (5,1)=2, (5,3)=9, (5,5)=3. A path of gray lines connects the numbers in the following order: 8 (1,1) -> 1 (1,2) -> 7 (2,3) -> 5 (3,2) -> 9 (4,1) -> 1 (4,2) -> 5 (4,3) -> 8 (4,4) -> 2 (4,5) -> 7 (4,6) -> 3 (4,7) -> 9 (5,3) -> 3 (5,5) -> 4 (3,6) -> 1 (2,6) -> 1 (2,5) -> 4 (2,4) -> 3 (1,4) -> 6 (1,5) -> 5 (1,6) -> 8 (1,7).
