

A 6x6 grid with numbers and a continuous path. The numbers are placed in the following cells (row, column): (1,3)=5, (1,4)=8, (1,5)=9, (1,6)=4, (2,1)=2, (2,2)=8, (2,3)=9, (2,4)=6, (3,1)=8, (3,2)=2, (3,4)=1, (3,5)=6, (3,6)=5, (4,1)=6, (4,2)=4, (4,4)=5, (4,5)=4, (4,6)=7, (5,1)=1, (5,2)=9, (5,4)=2, (6,1)=5, (6,2)=3, (6,4)=9, (6,6)=6. The path is a continuous line connecting the numbers in the following order: 5 (1,3) -> 8 (1,4) -> 1 (2,3) -> 9 (2,4) -> 6 (2,5) -> 1 (3,4) -> 5 (3,5) -> 4 (3,6) -> 7 (4,6) -> 4 (4,5) -> 2 (4,4) -> 5 (4,4) -> 1 (5,1) -> 9 (5,2) -> 3 (6,2) -> 5 (6,1) -> 6 (6,6) -> 9 (6,4) -> 2 (5,4) -> 6 (3,5) -> 8 (1,4) -> 5 (1,3).
