

The grid-in response area consists of a 9x9 grid. Each row has five columns. The first three columns are separated from the last two by a vertical line. The first column is further separated from the second by another vertical line. The grid contains the following numbers and symbols:

7					4	8	3	6
	.				.		.	5
6	8						1	
	1				6			
3	.					.	.	.
2						6		
		7	4					
.		6			.	7		.
5	7	2	6		3	9	5	

Note: Symbols include black dots (.) and white circles (○) placed in specific cells.
