

A 6x6 grid with numbers and paths. The numbers are placed in the following cells (row, column): (1,3)=6, (1,5)=9, (1,6)=1, (2,2)=1, (2,4)=6, (2,6)=2, (2,7)=7, (2,8)=8, (3,2)=9, (3,4)=8, (3,6)=6, (4,1)=4, (4,2)=3, (4,5)=6, (4,6)=1, (5,1)=6, (5,3)=5, (5,7)=3, (6,3)=8, (6,4)=3, (7,1)=8, (7,2)=9, (7,3)=3, (8,6)=4, (8,8)=6. The paths are drawn through the following cells (row, column): (2,2)=1, (3,2)=9, (3,4)=8, (4,5)=6, (4,6)=1, (5,3)=5, (5,7)=3, (6,3)=8, (6,4)=3, (7,1)=8, (7,2)=9, (7,3)=3, (8,6)=4, (8,8)=6. The paths are continuous and do not cross.
