

A 9x9 grid with numbers and a path. The numbers are placed in the following cells (row, column): (1,1)=2, (1,4)=6, (1,7)=4, (1,9)=7, (2,3)=1, (2,7)=8, (3,2)=3, (3,3)=4, (3,7)=8, (4,2)=6, (4,3)=2, (4,9)=3, (5,2)=7, (5,4)=3, (5,5)=1, (5,7)=2, (6,1)=5, (6,2)=1, (6,3)=4, (6,4)=1, (6,5)=5, (6,7)=3, (7,1)=9, (7,2)=2, (7,3)=3, (8,8)=1. A path of gray diamonds connects the following cells: (2,3) to (2,4) to (3,4) to (3,5) to (4,5) to (4,6) to (5,6) to (5,7) to (6,7) to (6,8) to (7,8) to (7,9) to (8,9) to (8,8) to (8,7) to (8,6) to (8,5) to (8,4) to (8,3) to (8,2) to (8,1) to (7,1) to (6,1) to (6,2) to (6,3) to (6,4) to (6,5) to (6,6) to (6,7) to (6,8) to (6,9) to (5,9) to (5,8) to (5,7) to (5,6) to (5,5) to (5,4) to (5,3) to (5,2) to (5,1) to (4,1) to (4,2) to (4,3) to (4,4) to (4,5) to (4,6) to (4,7) to (4,8) to (4,9) to (3,9) to (3,8) to (3,7) to (3,6) to (3,5) to (3,4) to (3,3) to (3,2) to (3,1) to (2,1) to (2,2) to (2,3).
