

The image shows a 10x10 grid. A thick black path starts at the top-left corner (0,0) and winds through the grid, ending at the bottom-right corner (9,9). The path is composed of several connected segments. A thin gray path also winds through the grid, starting at (0,0) and ending at (9,9), following a different route than the black path. The gray path is more direct, often cutting across open spaces.
