

A 6x6 grid with numbers and a path. The numbers are placed in the following cells (row, column): (1,1)=5, (1,4)=4, (1,6)=1, (2,3)=8, (2,5)=8, (2,6)=9, (3,3)=3, (3,5)=9, (3,6)=4, (3,6)=6, (4,1)=6, (4,2)=9, (4,3)=4, (4,4)=3, (4,5)=5, (5,2)=3, (5,3)=8, (5,4)=1, (5,5)=9, (5,6)=5, (6,3)=6, (6,4)=5, (6,5)=4, (6,6)=2, (6,7)=5, (6,8)=3. A path of gray lines connects the numbers in the following order: 5 (1,1) -> 8 (2,3) -> 4 (1,4) -> 8 (2,5) -> 9 (2,6) -> 6 (3,6) -> 5 (4,5) -> 3 (4,4) -> 3 (5,3) -> 8 (5,3) -> 1 (5,4) -> 4 (6,5) -> 2 (6,6) -> 5 (6,7) -> 3 (6,8).
