

A 6x6 grid with numbers and a path. The numbers are: Row 1: (1,3)=5, (1,4)=1, (1,5)=4; Row 2: (2,3)=1, (2,4)=5, (2,5)=9, (2,6)=2; Row 3: (3,1)=5, (3,2)=7, (3,4)=2, (3,5)=3, (3,6)=1; Row 4: (4,2)=6, (4,4)=7, (4,5)=8, (4,6)=6; Row 5: (5,1)=9, (5,2)=5, (5,3)=7, (5,4)=8, (5,5)=6; Row 6: (6,3)=2, (6,6)=6. A path of gray lines connects the numbers in the following order: 5 (1,3) -> 1 (1,4) -> 4 (1,5) -> 2 (2,6) -> 9 (2,5) -> 5 (2,4) -> 1 (2,3) -> 7 (3,2) -> 5 (3,1) -> 6 (4,2) -> 7 (4,4) -> 2 (3,4) -> 8 (4,5) -> 6 (4,6) -> 8 (5,5) -> 7 (5,3) -> 5 (5,2) -> 9 (5,1) -> 2 (6,3) -> 6 (6,6).
