

A 6x6 grid with numbers and a path. The numbers are: Row 1: (1,1)=4, (1,2)=9, (1,3)=2, (1,4)=5, (1,5)=1, (1,6)=3; Row 2: (2,1)=3, (2,2)=9, (2,3)=1, (2,4)=6, (2,5)=4, (2,6)=1; Row 3: (3,1)=2, (3,2)=6, (3,3)=9, (3,4)=1, (3,5)=5, (3,6)=2; Row 4: (4,1)=8, (4,2)=4, (4,3)=9, (4,4)=2, (4,5)=9, (4,6)=6. The path is a continuous line of gray segments connecting the following cells: (1,3) to (1,4), (1,4) to (1,5), (1,5) to (1,6), (1,6) to (2,6), (2,6) to (2,5), (2,5) to (2,4), (2,4) to (2,3), (2,3) to (2,2), (2,2) to (2,1), (2,1) to (3,1), (3,1) to (3,2), (3,2) to (3,3), (3,3) to (3,4), (3,4) to (3,5), (3,5) to (3,6), (3,6) to (4,6), (4,6) to (4,5), (4,5) to (4,4), (4,4) to (4,3), (4,3) to (4,2), (4,2) to (4,1).
