

A 6x6 grid with numbers and a continuous path. The numbers are placed in the following cells (row, column): (1,1)=1, (1,2)=8, (1,4)=3, (1,5)=4, (1,6)=5, (2,1)=5, (2,6)=8, (3,1)=9, (3,2)=3, (3,4)=2, (3,5)=7, (3,6)=7, (4,3)=3, (4,4)=4, (4,6)=3, (4,7)=4, (5,1)=5, (5,2)=8, (5,3)=4, (5,4)=3, (5,5)=8, (5,6)=7, (5,7)=1. The path is a continuous line connecting the numbers in the following order: 1 (1,1) -> 5 (2,1) -> 3 (3,2) -> 9 (3,1) -> 5 (5,1) -> 8 (5,2) -> 4 (5,3) -> 3 (5,4) -> 8 (5,5) -> 7 (5,6) -> 3 (4,3) -> 4 (4,4) -> 6 (4,5) -> 2 (3,4) -> 7 (3,5) -> 7 (3,6) -> 5 (1,6) -> 4 (1,5) -> 3 (1,4) -> 8 (2,6) -> 7 (3,6) -> 4 (4,6) -> 3 (4,3) -> 2 (3,4) -> 1 (2,4) -> 3 (1,4).
