

A 6x6 grid with numbers and a path. The numbers are: Row 1: (1,6)=1; Row 2: (2,1)=5, (2,3)=9, (2,4)=7, (2,5)=2, (2,6)=6; Row 3: (3,1)=9, (3,2)=6, (3,4)=4, (3,5)=9, (3,6)=3; Row 4: (4,1)=8, (4,2)=3, (4,4)=7, (4,6)=4; Row 5: (5,1)=4, (5,2)=3, (5,3)=1, (5,5)=4; Row 6: (6,1)=2, (6,3)=3, (6,5)=5, (6,6)=2. The path is a continuous line of gray segments connecting the following cells: (2,1) to (2,2), (2,2) to (2,3), (2,3) to (2,4), (2,4) to (2,5), (2,5) to (2,6), (2,6) to (3,6), (3,6) to (3,5), (3,5) to (3,4), (3,4) to (3,3), (3,3) to (3,2), (3,2) to (3,1), (3,1) to (4,1), (4,1) to (4,2), (4,2) to (4,3), (4,3) to (4,4), (4,4) to (4,5), (4,5) to (4,6), (4,6) to (5,6), (5,6) to (5,5), (5,5) to (5,4), (5,4) to (5,3), (5,3) to (5,2), (5,2) to (5,1), (5,1) to (6,1), (6,1) to (6,2), (6,2) to (6,3), (6,3) to (6,4), (6,4) to (6,5), (6,5) to (6,6).
