

A 6x6 grid with numbers and a path. The numbers are placed in the following cells (row, column): (1,1)=4, (1,2)=5, (1,3)=2, (1,4)=1, (1,5)=1, (2,3)=3, (2,4)=4, (2,5)=5, (2,6)=9, (3,2)=5, (3,4)=3, (3,5)=4, (4,3)=8, (4,4)=1, (4,5)=5, (4,6)=7, (4,7)=3, (5,2)=1, (5,4)=7, (5,5)=2, (5,6)=9, (6,1)=9, (6,3)=7, (6,5)=2, (6,6)=6, (6,7)=1. A path of gray lines connects the numbers in the following order: 4 (1,1) -> 5 (1,2) -> 2 (1,3) -> 3 (2,3) -> 4 (2,4) -> 1 (1,4) -> 1 (2,5) -> 5 (2,6) -> 9 (2,6) -> 3 (3,2) -> 5 (3,4) -> 4 (3,5) -> 8 (4,3) -> 1 (4,4) -> 5 (4,5) -> 7 (4,6) -> 3 (4,7) -> 1 (5,2) -> 7 (5,4) -> 2 (5,5) -> 9 (5,6) -> 9 (6,1) -> 7 (6,3) -> 2 (6,5) -> 6 (6,6) -> 1 (6,7).
