

A 9x9 grid with numbers 1-9 and grey lines forming a pattern. The numbers are placed in the following cells (row, column):

				1		7		
					3	2	4	5
			8					
6					4			9
1		8				3		
7		2	5	3			1	
5							9	
4					1			2
8	2	3			5			

The grey lines form a pattern that is symmetric across the main diagonal. The lines are as follows:

- Row 1: A horizontal line from column 4 to 5, and a vertical line from row 1 to 2 at column 7.
- Row 2: A horizontal line from column 6 to 7, and a vertical line from row 2 to 3 at column 8.
- Row 3: A horizontal line from column 1 to 2, and a vertical line from row 3 to 4 at column 3.
- Row 4: A horizontal line from column 3 to 4, and a vertical line from row 4 to 5 at column 5.
- Row 5: A horizontal line from column 4 to 5, and a vertical line from row 5 to 6 at column 6.
- Row 6: A horizontal line from column 5 to 6, and a vertical line from row 6 to 7 at column 7.
- Row 7: A horizontal line from column 6 to 7, and a vertical line from row 7 to 8 at column 8.
- Row 8: A horizontal line from column 7 to 8, and a vertical line from row 8 to 9 at column 9.
- Row 9: A horizontal line from column 8 to 9.
