

A 10x10 grid with 30 black circles scattered across it. The circles are distributed in a way that appears random, with some clusters and some empty spaces. For example, there are three circles in the bottom-right corner (rows 8-10, column 9), and a small group of three circles in the middle-left area (rows 4-6, column 3). The circles are all of the same size and are drawn with a black outline.
