

A 10x10 grid with 30 black circles scattered across it. The circles are distributed in a way that suggests a random process, with some clusters and many empty cells. The grid lines are thin and gray, and the circles are simple black outlines. The circles are located at the following approximate (row, column) coordinates: (1,1), (1,10), (2,2), (2,4), (2,6), (2,8), (3,4), (3,6), (3,10), (4,1), (4,3), (4,7), (4,8), (5,2), (5,4), (5,9), (6,1), (6,3), (6,10), (7,2), (7,4), (7,6), (7,9), (8,1), (8,3), (8,5), (8,7), (8,9), (9,1), (9,2), (9,4), (9,6), (9,8), (9,10), (10,5), (10,8), (10,9).
